“ *I woke up this am and I had a strong feeling to look up Dr Papalia, only to find he had passed. I cannot say enough of what he did for me during my time at SUNY Cortland when my mother passed away. He was a support that believed in me and helped guide me when my world was shattered.*

He was there to guide me like a loving grandfather. He wisdom and ability to communicate in such a way to uplift others was amazing. I did a summer internship with him and loved working in the office.

Every year since 1993 (except last year), I would receive a Christmas card with a personal note from him. His words were heartfelt and personal. He made me feel important. I will miss those notes, but know I was blessed by an earthly angel.

“ Tony changed my life! I always knew who he was because I went to Saint Anthony’s and I saw him there all the time. Tony came into Smith Corona where I worked and help me get my bachelors degree and fought for me every step of the way! When I got laid off from Smith Corona, Tony helped me get my masters degree in teaching and I became an Earth science teacher at South Jefferson, high school in Adams, New York. I’ve got a few of his Christmas cards that he sent to me and I’ll always treasure them. They’ll never be another man like him! I love this man like a father! Thanks for everything Tony. I’ll miss you.

“ When I began my ministry in Cortland, I set up a lunch date with my new colleague, Father Ed O'Heron. Over the years Fr. O'Heron gave me many gifts, but the greatest was that he invited Tony to join us for that lunch. What a precious gift he was. Over the years he had immense influence over my life and ministry, with his insights, support, and love. Although, when he decided that the campus needed its own doctor in the Health Center, he stole mine, Dr. Nancy Sternfeld, who, of course, became an outstanding resource for our students. I forgave him for that. My love and condolences go out to his family and to all that were blessed to have him in their lives. Don Wilcox

“ My favorite memory of Tony is from my 9th grade year. He gave me an aptitude test one weekend at his office; it revealed that I'd be a good cartographer. When I asked what that is, he smiled and said map-maker. Nope, I thought, not for me. Here I am, decades later, an environmental engineer dealing regularly with GIS, maps, etc! Well done Tony! Rest in peace. Many condolences to the family

“ Tony once counseled me on my study habits. I wasn't exactly a stellar student at the time. I spent a great deal of time at their home. I was welcomed like one of the family. I am eternally grateful. Condolences to the sisters and extended family.
