“ As a kid I always loved hanging out with Timmy <3 He loved to sneak up and try to startle us "BOO!". He loved everyone and had a strong strong hug. Lots of wet kisses on my cheek and so many laughs together. I remember dressing up as Pippy Long Stocking one year and Timmy didn't believe those braids sticking straight out was my real hair. He lifted me right off the ground by my braids. After being let back down we all just laughed. I'm sad that it's been a long time since Tim and I exchanged a hug or a hello, but I know he will have a big smile on his face when we meet again. I love you Timmy!

“ Timmy always greeted you with a stiff handshake and a loving kiss. He inspired others to try harder. By seeing him work hard to overcome his own challenges, it reminded others to work harder as well. He helped teach us about our own strengths and gifts. Like a rainbow, Timmy was a blessing from above. We mourn the loss and also celebrate the life he led and the lessons he gave us. May he rest in peace and always be remembered by his family and friends.

“ I can't even describe how much we are all going to miss you! I will truly miss our little inside jokes, making you a cup of coffee with about half of it being coffee and the rest being creamer and 3 heaping spoonfuls of sugar, you always scaring us, watching "Emergency" with you and saying "oh no what happened Tim!" And watching you speed read any book or magazine you could get your hands on. But most of all, I will miss your amazing contagious smile and laugh. Thank you for all the amazing memories we have created over the years and thank you for teaching me so many amazing lessons and guiding me towards the career I have today, because you are the biggest reason I do what I do today and love it so much! Don't forget to wash your hands and remember "finger Timmy!"

I love you and will miss you so much!

“ I too lived in McGraw and remember Timmy sitting on his front porch steps. Every time I and the family drove by he always waved and that would put a smile on my face. Thanks for all those wonder waves.
